

HOW DO I IMAGINE IMPLEMENTING THE ERASMUS PROGRAMME PRIORITIES DURING MY INTERSHIP

MARTYNA CWYNAR 3TWA

Participating in the Erasmus program is one of my dreams. I'm happy to share my thoughts on a intership abroad. This presentation will show the priorities for the project from my perspective.

INCLUSION AND DIVERSITY

I support all people, not criticizing their skin color or disability. Everyone should be equal, help each other and express their opinions to achieve their goals.

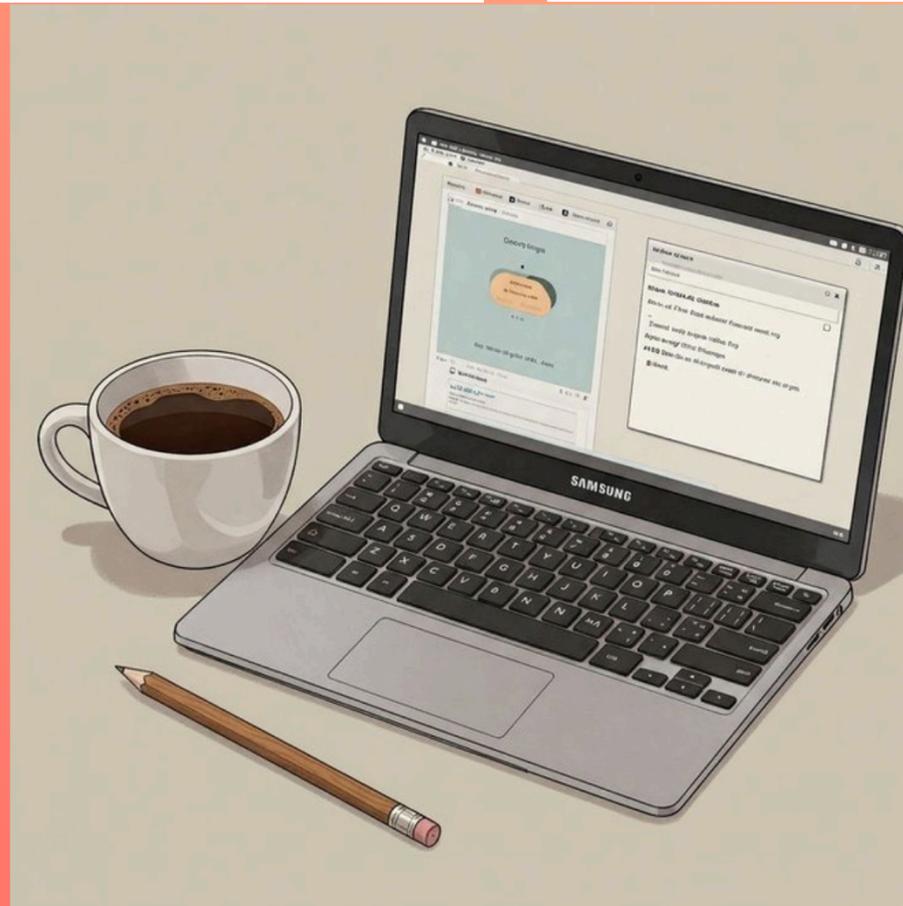

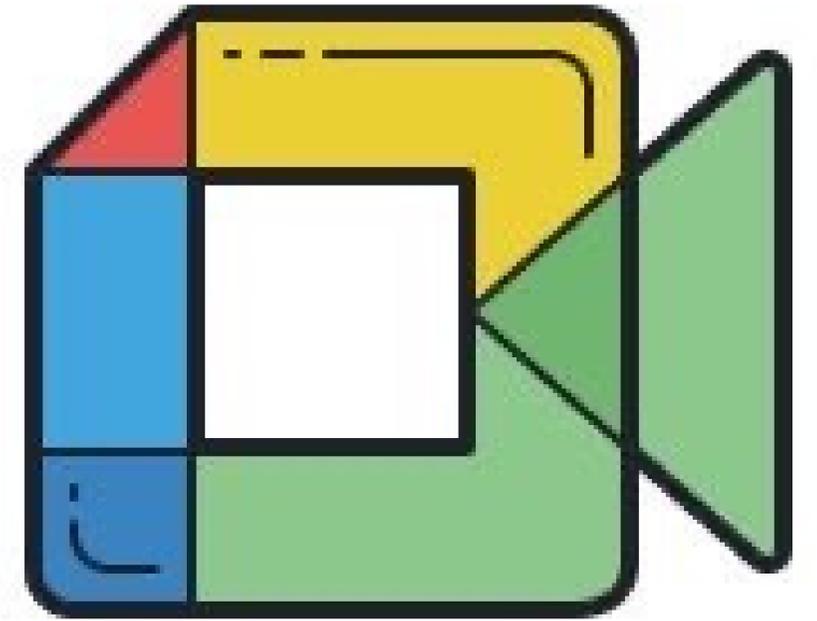

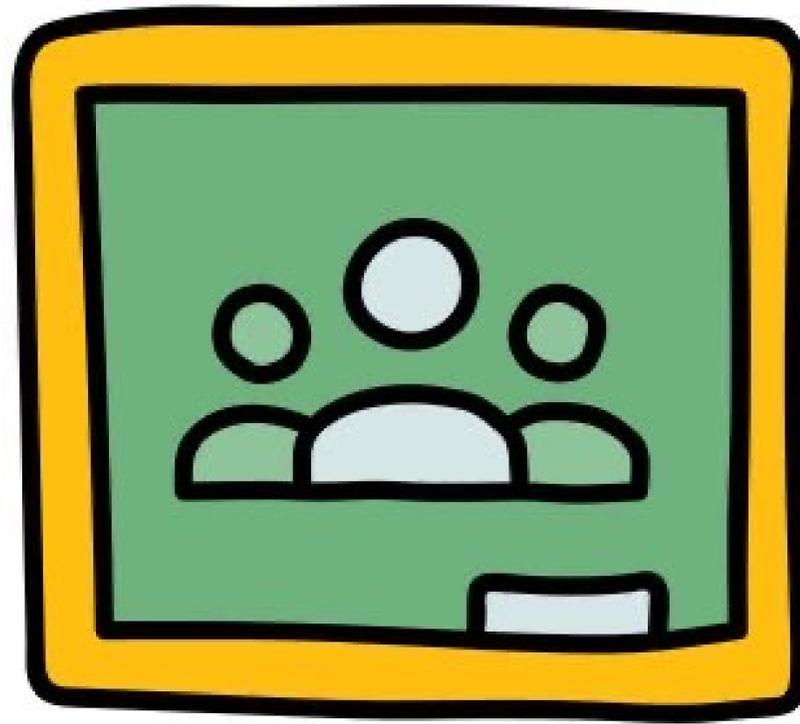

I believe that people will start to change and stop criticizing each other, because without cooperation, we will achieve nothing. I'm glad that thanks to this project, I have the opportunity to meet new people, learn a new language, and experience a new culture.

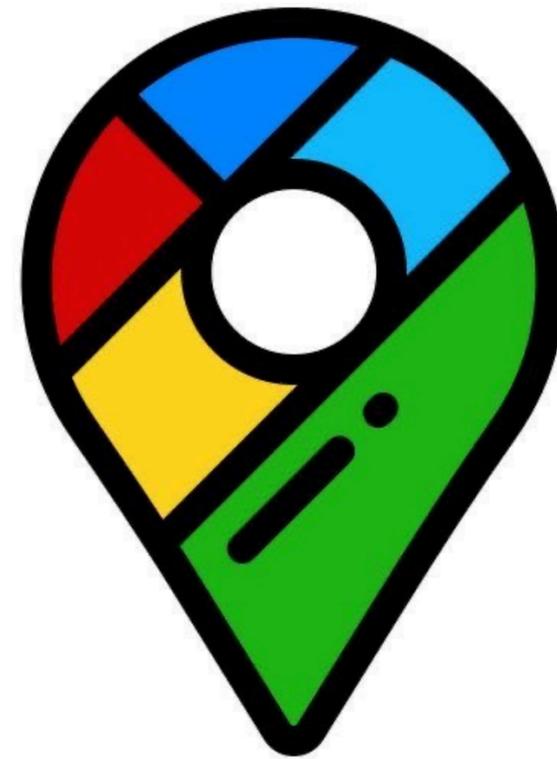

DIGITAL TRANSFORMATION IN POLAND

While preparing the project, we obtained all information on the Classroom platform. In-person classes included presentations and student-completed assignments. Cultural studies classes took place online on the Meet platform, where the presentation was also displayed. Additionally, to develop our skills, we had to prepare a presentation on Erasmus program standards.

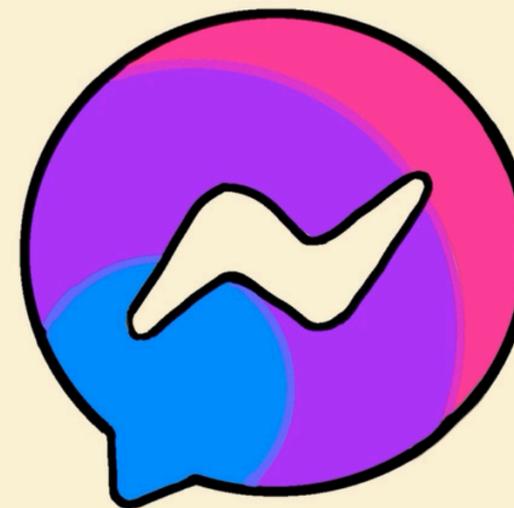

DIGITAL INFORMATION IN PORTUGAL

I Think there will be a Messenger group in Portugal to keep in touch. I Think using a translator will also be necessary, as will Google Maps. If any trips are organized, we'll definitely use the camera.

Translator.

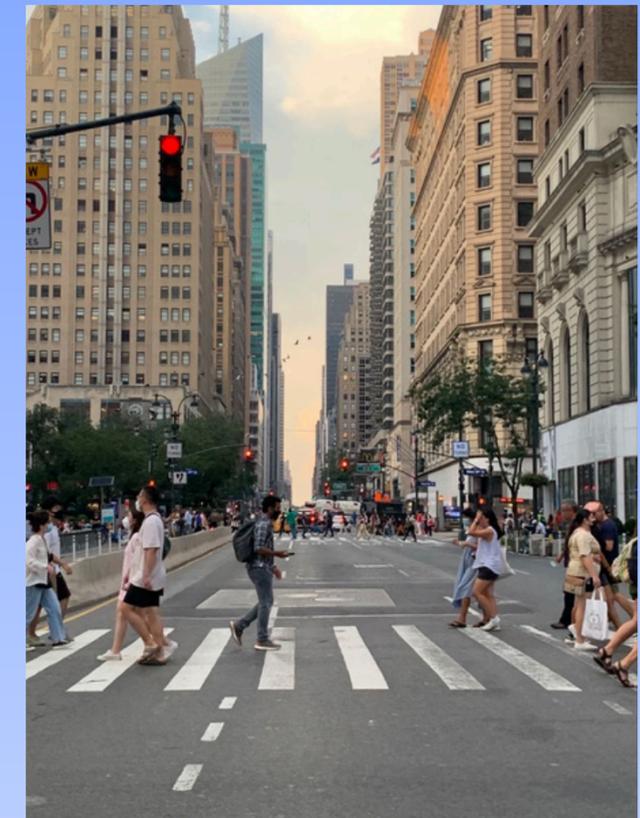

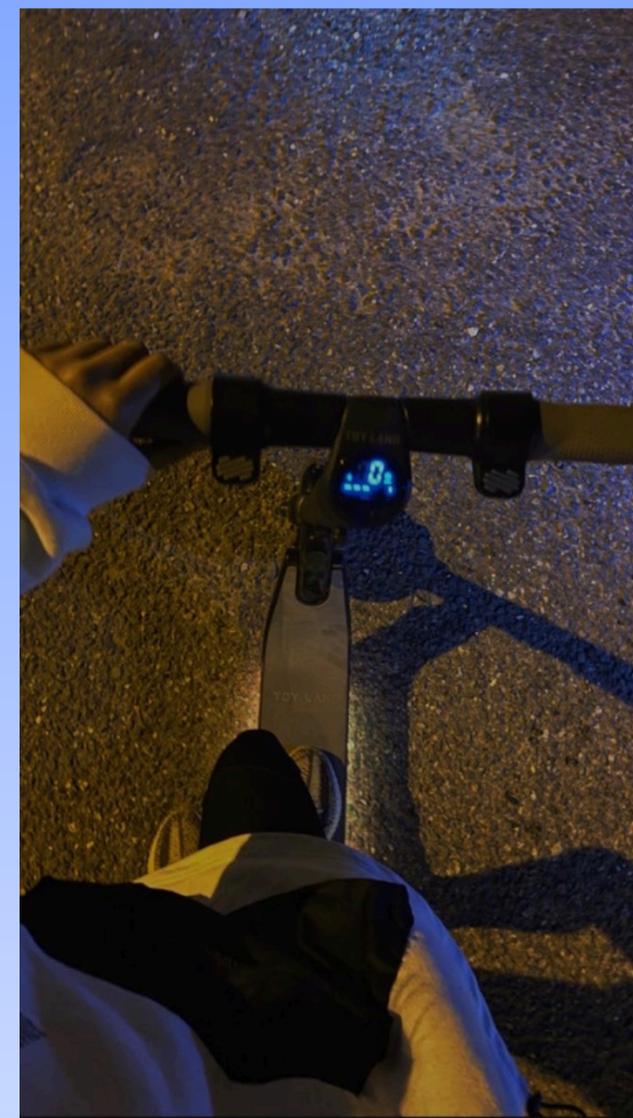

ENVIRONMENT AND FIGHT AGAINST CLIMATE CHANGE

We will be flying to Portugal by plane, which is not very ecological, but we don't have such choice.

We'll be using public transportation or walking to avoid polluting the environment. Regarding transportation to the clinic, I think we'll use taxi or bolt. Electric scooters and bicycles are also popular in Portugal.

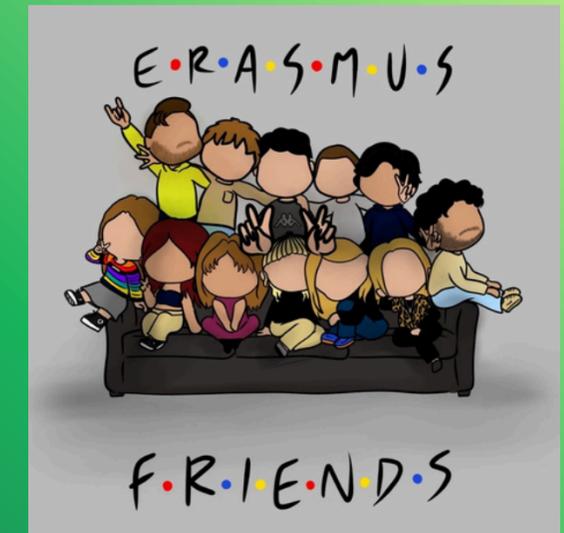

Climate change is also linked to waste separation. I always dispose of waste properly, which is good for the environment.

PARTICIPATION IN DEMOCRATIC LIFE, COMMON VALUES AND CIVIC ACTIVITY

The aim of the Erasmus programme is to show people that learning and development are possible and accessible to everyone. Travelling abroad motivates young people to make important decisions and take responsibility for them. It encourages them to explore new cultures and the world.

IMPROVING YOUR INTERCULTURAL COMPETENCES

Thanks to Erasmus, I have the opportunity to learn a new language, culture, cuisine, and history of Portugal. Since I was a child, I've loved traveling and visiting different places, and this program allows me to fulfill my dreams.

INCREASING YOUR KNOWLEDGE ABOUT THE EUROPEAN UNION

Thanks to Erasmus, I learned that the European Union supports and finances such projects so that high school students can develop and learn about Europe.

THANK YOU FOR YOUR ATTENTION
